

March 4, 2009

For the last five years, Laura Welch has been a key supplier of database consulting services for my company. In that time, I have come to appreciate her accuracy, reliability, flexibility and diligence. She has always been proactive in understanding our business and tailoring her deliverables to meet our needs and our deadlines. She is meticulous, thorough, responsive, and deadline and detail conscious. Above all, she is a consummate professional who is easy to work with, provides exceptional value, delivers high-quality services and makes my job easier.
